visio.lign®
The Aesthetic and Functional System
visio.lign®

The aesthetic and functional system is set to impress with its unique options to create natural beauty, function and physiology. The open system ensures flexibility and freedom, thanks to 6 compatible components: crea.lign®, novo.lign®, neo.lign®, visio.CAM, visio.paint & bond.lign. It provides suitable tools for each workflow and ideal preconditions for perfect implant-prosthetic solutions.

visio.lign® is the system for stability and reliability. The result: durable-prosthetic restorations featuring colour stability and superior load capacity.
10 years of experience

Global market leader* in physiological veneers

2013
visio.CAM
L-Design
(novo.lign® & neo.lign®)

2014
crea.lign® Paste

2016
bond.lign
crea.lign® Paste GUM

Opalescence of natural tooth
MDT Jürgen Freitag, Bad Homburg, Germany

crea.lign®
create natural beauty

veneering composite
The light-curing composite features impressive natural opalescence and unparalleled light transmission for natural beauty.
Opalescence of crea.lin

Dr. Vincenzo Musella, Modena, Italy
The novo.lign® veneers feature an extended neck and a natural depth thanks to the morphological layer structure. The gold standard in implant prosthetics.
The neo.lign® denture teeth feature the same shades, designs and materials as the novo.lign® veneers – optimised for fixed/removable restorations.
**visio.CAM**

design natural beauty

**composite blanks**
The material benefits from the visio.lign® system are also available for CAD/CAM processing. The blanks from the visio.CAM line are compatible with the entire visio.lign® system.
visio.paint

colour natural beauty

stains
The visio.paint stains enable fast and simple individualisation of veneers.
bond.lign
secure natural beauty

primer/bonder
The primer/bonder system for a permanent and secure chemical adhesive bond between all system components and common framework materials – including BioHPP® (PEEK).
